

Fulfilling Microbiology Needs

TMFlex™ Bag

Reliable, Sterile, and Ready for Every Sampling Need

Designed to streamline Lab Sampling

An ideal innovation for microbiological sample requirements that is both convenient and safe. TMFlex™ Bags are engineered for accuracy, sterility and convenience. In manufacturing operations, TMFlex™ Bags are essential for:

Sample Collection:

Easy and contamination-free collection of solid, liquid and semi-solid samples.

Transportation:

Move samples between sample collection areas to labs and external facilities safely.

Storage:

Store specimens securely and protect their sterility and integrity.

Why Choose TMFlex™ Bags?

- **Extensive Selection:** Several convenient sizes and capacities for a wide range of sampling requirements.
- **Hygienic & Sterile:** Made of high food graded material, sterile and secure avoiding the contamination of samples.
- **Easy to Use:** Samples are easy to process, open, collect, seal, store and retrieve.
- **Watertight Seal:** Robust seal technology offers safe transportation and stops leaks.
- **Economical Solution:** No longer any need for heavy sample vessels, so storage and disposal costs are reduced.
- **Save Time:** Pre-sterilized and ready to use to save your time in busy labs.
- **Environment-Friendly:** Disposable, yet designed to minimize secondary contamination and pollution.
- **Compact:** It's small design will save space in comparison to bulky conventional canisters.

How to Use TMFlex™ Bags

01

Open: Tear the top seal under sterile conditions.

02

Fill: Gently place a sample into the bag.

03

Seal: Twist the top of the bag, close it tightly.

04

Store/Transport: Transport or store safely until analysis.

Available Variants:

- **Homogenizer Blender Filter Sampling Bags:** Ideal for homogenizing samples in the lab, for use when dealing with solids, semi-solids and liquids.
- **Sampling Bags:** Used for collecting and analyzing samples in various fields.
- **Write-On Sampling Bags:** Provides a convenient labelling space for sample identification, traceability, and record-keeping.
- **Stand-up Sampling Bags:** For stable standing during storage and testing.
