At **TM Media**, the Life sciences division of **Titan Biotech Ltd.**, we understand the critical importance of water quality in every aspect of life. Whether it's for drinking, industrial processes, or environmental conservation, ensuring the microbiological safety of water is paramount. Our Water Microbiology testing solutions are designed to provide accurate, reliable, and timely results, ensuring that you have the confidence to safeguard health, industry, and the environment. With years of experience in microbiology and a commitment to innovation, TM Media is a trusted partner in water quality assessment. Our comprehensive range of Water Microbiology testing products covers a wide spectrum of applications, including:

- **Drinking Water Analysis:** Verify the safety of drinking water sources with our comprehensive Ready-to-Use Kits, including kits for coliforms, E. coli, and other waterborne pathogens.
- **Industrial Water Monitoring:** Maintain the integrity of industrial processes by monitoring water quality. With our wide range of Culture Media, identify potential contaminants that may impact production or product quality.
- **Environmental Water Testing:** Preserve the health of aquatic ecosystems and comply with environmental regulations using our advanced water testing solutions.
- **Water Processing Essentials:** Enhance production quality with our Food Grade Chemicals and essential Water Minerals, specially formulated for the needs of the water manufacturing industry.

Our Solutions:

Our portfolio of Water Microbiology Testing products is designed to meet your specific needs, whether you're a water treatment plant, a research institution, or an environmental agency.

Filtration Funnels

TMC 069 Filtration Funnel

Membrane Filtration Funnel is a ready-to-use, pre-sterilized, individually packed disposable filtration device to prevent cross-contamination of samples. These are easy to handle and speed up microbial analysis of up to 70% of water as well as products in the Pharmaceutical, Beverage, and Food processing industries.

Benefits

- Superior performance
- High total throughput
- Sterilized and ready-to-use
- Easy handling
- Time saving – up to 70%
- Converts into a Petri Dish
- Available with a Membrane Filter
- Gridded
