

1300 -YEAST AUTOLYSATE POWDER (For Bacteriology)

INTENDED USE

For use in microbial culture media, fermentation and other biological products.

PRODUCT SUMMARY AND EXPLANATION

Yeast Autolysate powder is prepared by drying the extract from autolysing yeast cells (*Saccharomyces*) specially cultivated for this purpose. It is rich in vitamins and other nutritive substances such as free amino acids. It is a Yellow to light brownish free flowing powder having characteristic yeast odour but not pungent smell, Its Soluble in distilled water, clear and Insoluble in alcohol. . It is recommended for use in microbial culture media, fermentation and other uses.

PRINCIPLE

Yeast Autolysate is prepared by drying the extract from autolysing yeast cells (*Saccharomyces*) which is a good source of amino-nitrogen and vitamins, particularly the water soluble B- complex vitamins. Its addition to many media or fermentation broths increases the yield of organisms and is recommended where rapid and luxuriant growth is required.

INSTRUCTION FOR USE

It is used in the extraction and purification of enzymes and coenzymes and also used to enhance the color and flavor of food products.
