

## TMC 071 - STERILE COTTON SWAB W/ TUBE

### INTENDED USE

Proper collection and transportation of specimen whether in clinical or non-clinical setting are vital for correct recovery and identification of microorganisms. Sterile cotton swabs may be used for collection of specimens under aseptic technique. Cotton swabs will allow absorption of material and maintenance of viability for short time limits depending on maintenance condition. Such swabs may therefore be used for preparation of smears, microscopic observation using wet mount technique.

### APPLICATIONS:

For collection of specimens from nasal, throat, genitalia, medication applicator, for wound dressing, cleaning and cell collection.

### QUALITIES:

- In polypropylene tube, cotton bud w/ polypropylene stick.
- Size: 150 mm
- Packed in 12 mm diameter tube
- individually packed.

### PRODUCT FEATURES:

- Easy for collection of specimens from any source.
- Cotton swabs allow absorption of material and polypropylene shaft gives semiflexibility
- Disposable.
- Pack Size: 1 x 100 Nos.

**NOTE:** Please consult the Material Safety Data Sheet for information regarding hazards and safe handling Practices.

**\*For Lab Use Only**
